Dr Hisham Abdalla is a New Zealand doctor, practicing as a Laser Cosmetic Dental Surgeon. He is a Professional Educator, Transformational Speaker, Mind & Mouth Health Expert & Researcher, as well as Founder of Laser LifeCARE Institute and LaserKids Dental. He is an International Bestselling Author of #1 Amazon Best-seller book: 4D Leadership – Master the 4D's of success and Live Your Dreams.

Dental lasers are at the forefront of dental technology, and many practices are choosing to become unique minimally invasive laser clinics. This course will take you to your NEXT LEVEL and help you transform your ordinary practice into something extraordinary! **Dr Hisham** will also help you explore becoming the dentist you always wanted to be – overcome your fears and taking that forward leap to being a better, present and reinvigorated practitioner!

Dr Hisham Abdalla

Dr Kinnar Shah

Dr Kinnar Shah is based in Sydney and his passion and expertise is in Cosmetic, Laser and Implant dentistry. He is the principal director of SmileConcepts, Personal Growth Events, Instaclicks & Premium Ceramics. He is obsessed in teaching leadership, business, sales and communication skills to dental professionals.

He is walking the talk as an example in this field. Practicing 2½ days per week has allowed him to work “on” and grow his practice seven fold over the last 3 years. Being a Gallup-Certified Strengths Finder Coach, he specializes in working with the innate strengths and talents of the entire Practice Team for the potential of higher success. He has coached and consulted numerous practices in the last 3 years to implement certain methods and strategies to double or triple the number of daily new patients, get more employee engagement, delivering a client experience second to none and ultimately having a better quality of life. Being active in the dental field, he understands the unique challenges of today's dentists. His fresh perspective, innovative methods and system blueprints will facilitate your practice to higher levels.

Having been in the dental field for 15 years he is passionate about giving people the tools to be resourceful and effective.

Laser & Leadership Mastery For the Dental Soul

Lasers, Light and Digital Technology have evolved our Dental profession today to new heights unimaginable just 2 decades ago.

Many leading practitioners who are at the forefront of dentistry today, are choosing to become unique minimally invasive laser clinicians. You are invited to join that leadership group, wherever you are in the World today.

This course will take you to your NEXT LEVEL and help you transform your practice into something truly extraordinary!

By helping you master ALL aspects of Laser dentistry in depth (Why & How to - teaching specific Innovative Protocols), Dr Hisham will help you through this journey.

Overcome your limiting paradigms now and raise your ambition to serve better. We all know that we are not just clinicians, but also Leaders to our Team and we are responsible for the growth of our business. Dr Kinnar will share with you tested brain scripts and blueprints for financial and leadership success in your practice and lives.

We are doing this together in a unique, mastermind-style gathering of select colleagues from all around the world who want to share and enjoy the experience with you. Join us now.
