Module 3: 20th & 21st Aug

Module 4: 26th - 27th Nov

VENUE

**Dental Education Centre,
6/85 Bourke Road
Alexandria, NSW 2015**

COURSE OUTLINE

Sleep disorders are one of the fastest growing areas of medicine. For the last 12 months Medicare has been experiencing an explosion in the numbers of people seeking treatment for snoring and sleep apnoea.

This is down to a number of factors, including changing attitudes towards snoring, a greater appreciation for the need to get good quality sleep, and an increasingly overweight population. Despite the overwhelming demand for treatments the general public still does not know they can get treatment from their local dental practitioners.

This mini residency works with leaders in the field of sleep medicine, and highlights the latest developments in dental sleep medicine. This mini residency emphasizes the multidisciplinary approach to sleep disorders on dentistry.

This residency is designed to help clinicians to meet the standards, for the scope of dental practice, in sleep medicine, and to further the education, training and experience of dentists in this growing field.

Participating clinicians will gain a comprehensive knowledge on the use of oral appliances in the management of

snoring and sleep disordered breathing.

Attendees will learn how to integrate dental sleep medicine into daily practice. They will also learn the latest clinical protocols to help clinicians optimize treatment success. Finally the emerging role of Orthodontics, in the management of sleep disordered breathing will be reviewed.

PRICE PER COURSE

\$1,375
(including GST)

ADA CERP® | Continuing Education
Recognition Program

Excellence in Orthodontics and Dentofacial Orthopaedics is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Excellence in Orthodontics and Dentofacial Orthopaedics designates this activity for 20 continuing education credits.

PROVIDER is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing dental education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement.
